

ASPASA

Health & Safety Policy

ASPASA is fully committed to contribute and co-operate within the quarry industry in order to provide safety information and systems. To ensure that no operating condition or situation can ever justify endangering the life or health of anyone.

ASPASA's objectives are to:

- Ensure that members provide and maintain a safe work environment by doing the Aspasa ISHE (Integrated Health and Safety Education) audit at all member quarries.
- Compliance with applicable Health and Safety legislation
- Support efforts in improvement to Health and Safety in the workplace
- Promote Health and Safety training
- Assist members in addressing Health and Safety risks and hazards in their workplace
- Maintain communication channels with authorities and affected parties in regard to Occupational Health and Safety matters at quarries and operations.
- Participate in the **ASPASA** Health & Safety (ISHE) Audit program
- Integrate Health and Safety Management in the day to day management functions
- The commitment, participation and co-operation of all our employees are vital to the success of the **ASPASA ISHE** program
