C RIDDOR <sup>2</sup> reportable dangerous occurrences													
D Total number of days lost													
E Site head count													
F Total number of hours worked													

<sup>1</sup> A RIDDOR (Reporting of Injuries, Diseases and Dangerous Occurrences) reportable accident is one that involves a fatality or a specified injury on site. It also includes any accident which involves the injured person being off work for more than seven days. a specified injury could be a fracture, dislocation and any loss of sight whether it be temporary or permanent.

<sup>2</sup> A RIDDOR reportable dangerous occurrence is a collapse of a storage bunker, an accident involving explosives, a fly rock incident, a misfire, any insecure tips or any movement of a slope or face.
